

"When machines and computers, profit motives and property rights, are considered more important than people, the giant triplets of racism, extreme materialism, and militarism are incapable of being conquered."

- Dr. Martin Luther King, Jr.

The Players & factors in war profiteering:

- * The Defense Policy Board
- * Campaign Contributions
- * PR Firms and Media Blitzes
- * The Business-Politics "Revolving Door"
- * Weapons Manufacturers
- * Oil Companies
- * Military Outsource Companies
- * "Reconstruction" Companies
- * The Federal Government

How these interests effect policy and profit from that influence:

The WAR RESISTERS LEAGUE has assembled speakers to address the problem of war profiteering and the vast influence that companies have in deciding what weapons systems to buy, what countries to invade, and what lands to occupy.

Our speakers can help your community:

- * Find out how war is sold.
- * Discover how political offices are used for corporate profits.
- * **Start your resistance by joining the national counter-corporate-recruitment campaign against Halliburton.**
- * And explore other nonviolent ways to confront the Merchants of Death.

Bring the "Stop the Merchants of Death" Campaign to your campus, place of worship, or peace and justice group.
