**MILITARY: 47% AND $1,501 BILLION**

$43% HUMAN RESOURCES

$6% GENERAL GOVERNMENT

$4% PHYSICAL RESOURCES

$27% CURRENT MILITARY

$20% PAST MILITARY

**HOW THESE FIGURES WERE DETERMINED**

“Current military” includes Dept. of Defense ($656 billion) and the military portion ($201 billion) from other departments as noted in current military box above. “Past military” represents veterans’ benefits plus 80% of the interest on the debt.* For further explanation, please go to warresisters.org.

These figures are from an analysis of detailed tables in the Analytical Perspectives book of the Budget of the United States Government, Fiscal Year 2019. The figures are Federal funds, which do not include Trust funds — such as Social Security — that are raised and spent separately from income taxes.

What you pay (or don’t pay) by April 17, 2018, goes to the Federal funds portion of the budget. The government practice of combining Trust and Federal funds began during the Vietnam War, thus making the human needs portion of the budget seem larger and the military portion smaller.

*Government Deception*

The pie chart (right) is the government view of the budget. This is a distortion of how our income tax dollars are spent because it includes Trust Funds (e.g., Social Security), and most of the past military spending is not distinguished from nonmilitary spending. For a more accurate representation of how your Federal income tax dollar is really spent, see the large graph.

Budget of the United States Government, Fiscal Year 2019

The president's FY2019 budget was greeted with "dead on arrival" by politicians. Congress had just passed a spending bill that overrode it, but one thing Congress and the president always agree on: more military spending. And worse, the budget message promises "a more lethal force," adding more victims to the hundreds of thousands — military and civilians — killed as a result of U.S. wars in Iraq, Afghanistan and Pakistan. It's also a more lethal budget with big cuts to food stamps, healthcare, legal protection for the poor, low income housing, employment training, environmental protection, parks, renewable energy, and more.

**Weapons**
- $24 billion more for nuclear weapons, which 122 nations are working to outlaw
- $69 billion more for endless war and more drone strikes that have killed over 5,000 civilians in Iraq and Syria since Oct. 2014
- $10 billion for a missile "defense" system: false security and more militarism
- $75 billion for aircraft, missiles, tanks and giant contractors like Lockheed Martin, Northrop Grumman, Raytheon and Boeing
- A lot more for the Pentagon, which has never passed an audit and can't account for billions of dollars of your money

**Walls**
- $1.6 billion — U.S. dollars not Mexican pesos — for 65 miles of border wall
- $3.5 billion for more armed border agents, ICE officers & $2.02 billion detention beds
- $15 billion cut to the State Dept. says to the world "military force not diplomacy"
- An endless drumbeat of tweets and reporting that criminalizes immigrant communities in this nation of immigrants

**Whopping Deficits**
- $7 trillion added to the deficit over 10 years
- U.S. public debt spikes with every war and military build-up since the Civil War
- Children will be paying off debt for today's endless wars — and $1 trillion/year medical and disability costs for thousands of wounded veterans

As our social fabric is stretched thin by widening income inequality, politicians criminalize the poor, fan the flames of racism and xenophobia to divide the poor, and steal from the poor to give tax breaks to the rich and budget increases to a bloated military.
