HOW THESE FIGURES WERE DETERMINED

Current military* includes Dept. of Defense ($704 billion) and the military portion ($204 billion) from other departments as noted in current military box above. “Past military” represents veterans’ benefits plus 80% of the interest on the debt.* For further explanation, please go to warresisters.org.

These figures are from an analysis of detailed tables in the Analytical Perspectives book of the Budget of the United States Government, Fiscal Year 2020. The figures are Federal funds, which do not include Trust funds — such as Social Security — that are raised and spent separately from income taxes.

What you pay (or don’t pay) by April 15, 2019, goes to the Federal funds portion of the budget. The government practice of combining Trust and Federal funds began during the Vietnam War, thus making the human needs portion of the budget seem larger and the military portion smaller.

*Analysts differ on how much of the debt stems from the military; other groups estimate 50% to 60%. We use 80% because we believe if there had been no military spending, most of the national debt would have been eliminated.

Government Deception
The pie chart (right) is the government view of the budget. This is a distortion of how our income tax dollars are spent because it includes Trust Funds (e.g., Social Security), and most of the past military spending is not distinguished from nonmilitary spending. For a more accurate representation of how your Federal income tax dollar is really spent, see the large graph.

WAR RESISTERS LEAGUE

Military aid and sales to countries the United States is occupying, using as proxies for war, or cosigning on their violence means that the United States is not only building up its own war machine but is also subsidizing the war machines of other countries.

For example, U.S. arms to the Philippines preserve a strategic location in the South China Sea, and U.S. arms to Saudi Arabia and Israel help to maintain control over non-allied countries in Southwest Asia. In these countries, respectively, the United States is responsible for funding extrajudicial executions, the deaths of thousands of Yemenis, and the genocide of Palestinians.

However, War Resisters League’s partners are doing incredible work to combat this. If you are interested in learning more, check out the International Coalition for Human Rights in the Philippines, U.S. Campaign for Palestinian Rights, and Win Without War.
